

**ARREST ON A CHARGE OF BANK ROB-
BERY.**—Some three or four years ago the Bank of Watson & Shannon, at Terre Haute, was broken into and robbed of four thousand dollars. There was no clue at the time to the perpetrator of the crime, and the affair had pretty well passed out of recollection of the public. At the time of the robbery a man named Monnenger, a German, was employed as a porter about the Bank. He shortly after left and returned to his native country. A few days ago he arrived in this city, having shipped a large quantity of imported liquors, which he was ready to dispose of. News of his arrival here and of his apparent wealth reached Terre Haute, when suspicion was aroused that he had been speculating on the missing four thousand dollars, and on Wednesday he was arrested by officers from that point, and was taken back yesterday to stand his trial for it. We do not know what the evidence against him is, and of course can give no opinion as to his guilt or innocence of the serious charge against him.—

CINCINNATI, Nov. 2.

MURKIN, A. L., HOSPITAL, & CO.

Dear Sirs.—The public generally are fully aware of the thousands of remedies for disease-sounds, under the titles of Narcanparitis, Pill-
tasters, Liniments, etc., that are daily brought to their notice through the newspapers, by way of advertisement etc. My object in writing this note for publication is to induce the public, or at least those who are afflicted (if they will not accept my advice) to read our *Post* containing articles on consumption in pulmonary diseases. I am *unquestionably* in no way acting *most unprofessionally*, and derogatory to the interests of science and the regular practitioners of medicine.

The medicine in which I believe is "Dr. Hall's Balsom for the Lungs." I have prescribed it in a large number of cases, and always with success. One case in particular to which I wish now to refer, was given up by a local physician who had been engaged in consultation with my self. The patient had all the symptoms of consumption, anorexia, cold night sweats, hectic fever, harassing cough, with continue pain in the loins of the right lung, attended with severe diarrhoea. He commenced immediately to get better by the use of the above medicine, and was soon restored to his usual health. I have also found Dr. Hall's Balsom the most valuable expectorant for breaking up distressing coughs and holds that I have ever used.

W. D. WRIGHT, M. D.

MORE PHYSICIANS' TESTIMONY.

We, the undersigned Physicians of Cincinnati certify that Dr. Wright's statements are entitled to the fullest confidence of the public, and we fully corroborate what he has said, having used Dr. Hall's Balsom in a number of cases with the happiest effect.
